RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants respectfully traverse the Restriction Requirement dated March 21, 2006. The Office has divided the claims into two groups. Group I includes claims 1-7 and is identified as being drawn to a method of perceptual 3-dimensional (3D) shape description, and Group II includes claims 8-15 and 16-20, drawn to a method and apparatus for searching a database of 3-dimensional (3D) graphics models.

Applicants note that Group II claims 8-20 actually depend from Group I claim 1. The search required of the Group II claims would logically encompass the search required for the Group I claims. Hence, the restriction is improper because a thorough examination of claims 8-20 would overlap and encompass the effort required for examining claim 1. Therefore, no undue burden sufficient to justify restriction is present, and the restriction should be withdrawn as not in compliance with MPEP 803.

For completeness, Applicants elect Group II, including Claims 8-15 and 16-20, drawn to a method and apparatus for searching a database of 3-dimensional (3D) graphics models.

In light of the foregoing, Applicants respectfully request withdrawal of the restriction requirement and earnestly solicit issuance of a favorable action on the merits.

Respectfully submitted,

BUCHANAN INGERSOLL PC
